AI agents that do real work inside business systems

Four agents in action.

Lim Chee Kin

AI SOLUTIONS ARCHITECT · KIN.RAG.WTF

Four agents, one idea

01

Claim Pilot

Expense claims

TEAMS

02

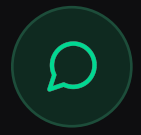

Trade Pilot

Orders & payments

WHATSAPP

03

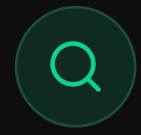

Agentic AI Layer

Sales

WHATSAPP

04

WareBot

Warehouse

MOBILE APP

Familiar channel in. AI does the typing. **People decide.**

Claim Pilot

Receipt photo in. Approved claim out.

SEND ANY OF

- Receipts
- Touch ’n Go
- Route maps

1 photo
to start a claim

2 sign-offs
verifier, then approver

Dynamics 365
approved claims post there

The life of a claim

Submit
CLAIMANT
Photo in Teams

Review
CLAIMANT
Check AI’s figures

VERIFIER
First sign-off

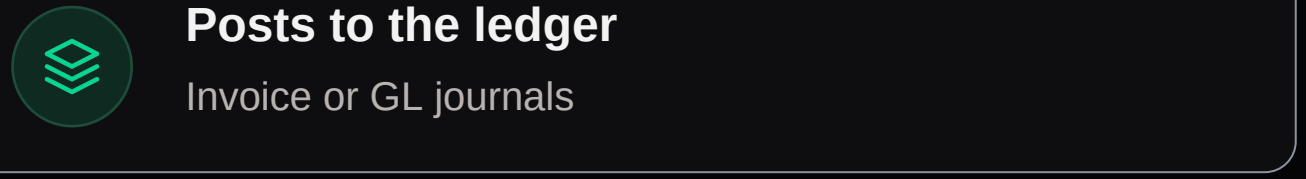

Approve
APPROVER
Second sign-off

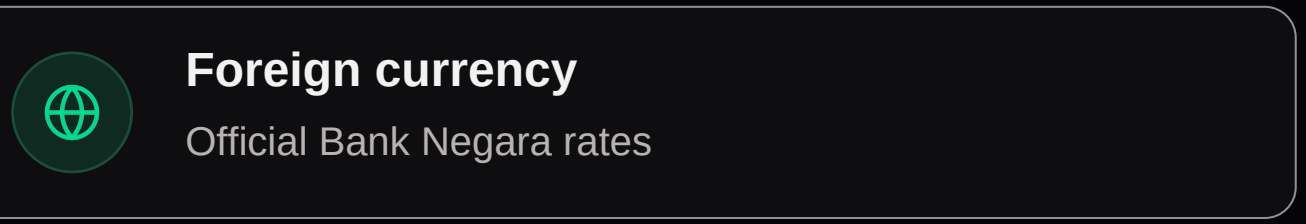

Print
APPROVER
One-page record

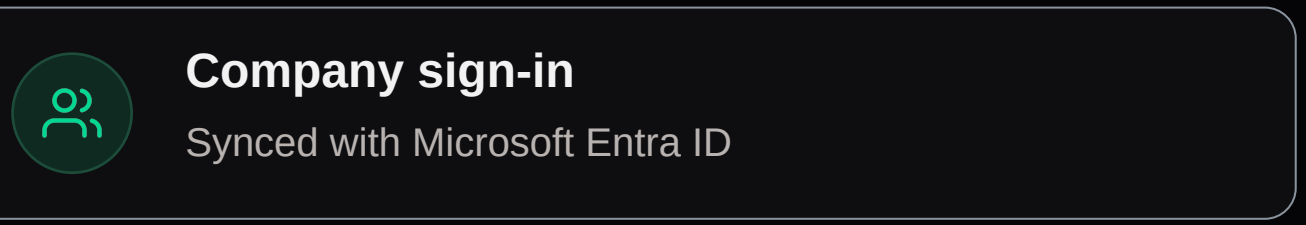

Rejected? Back to the claimant to fix.

Fits how finance already works

Approved in Claim Pilot.
Posted in Dynamics 365.

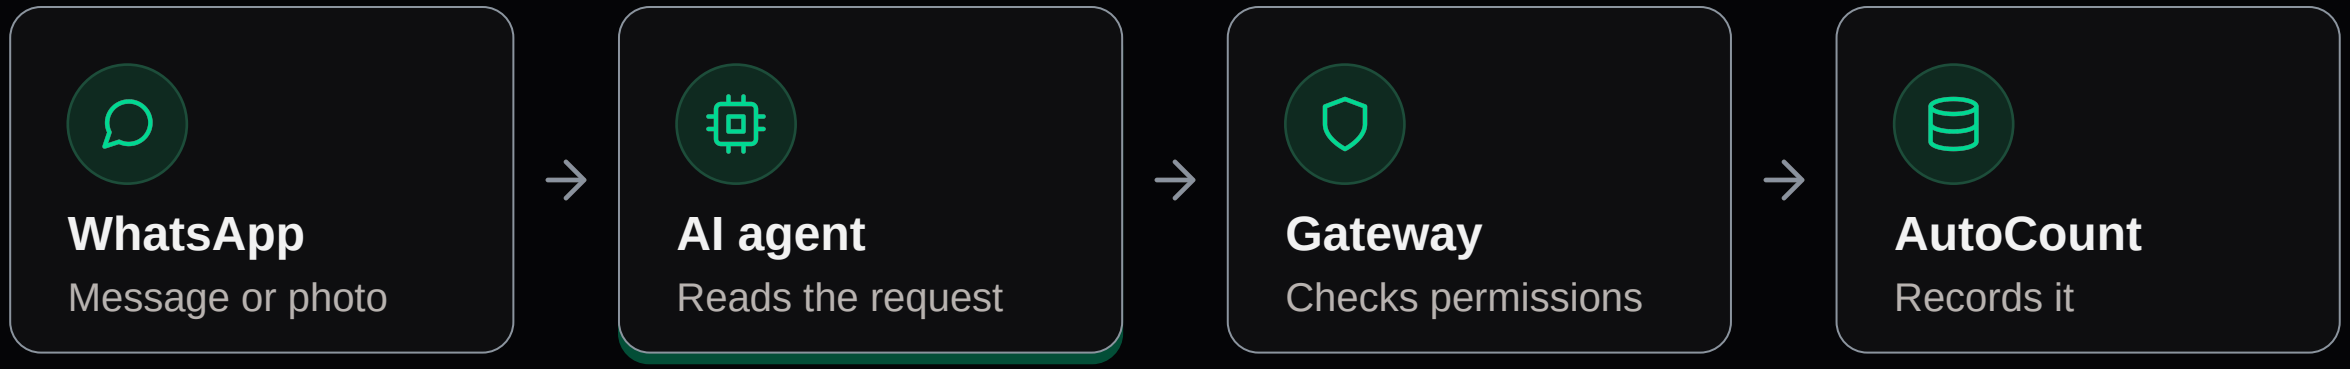

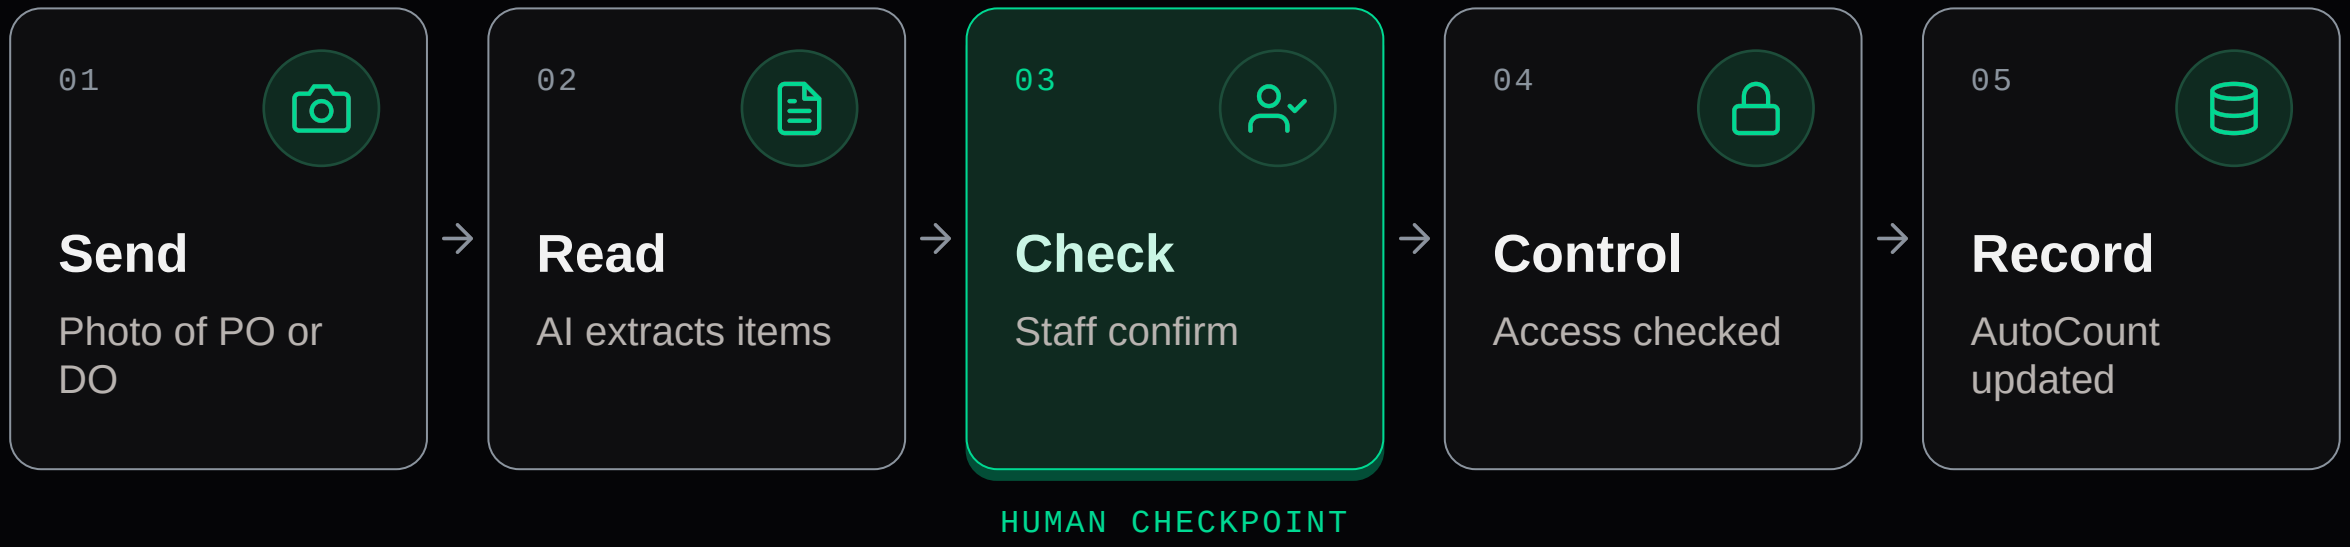

Trade Pilot

WhatsApp orders in. AutoCount documents out.

Not a chat. **A completed action.**

One photo to receive goods

Nothing posts without a person’s OK.

Payments that close the loop

01	**Invoice**	Amount and customer
02	**Validate**	Details checked
03	**Request**	Secure pay link sent
04	**Confirm**	Status comes back
05	**Settle**	Invoice updated

Handles the messy cases

- Duplicates
- Failed payments
- Retries

Agentic AI Layer

A team of AI agents that sells on WhatsApp.

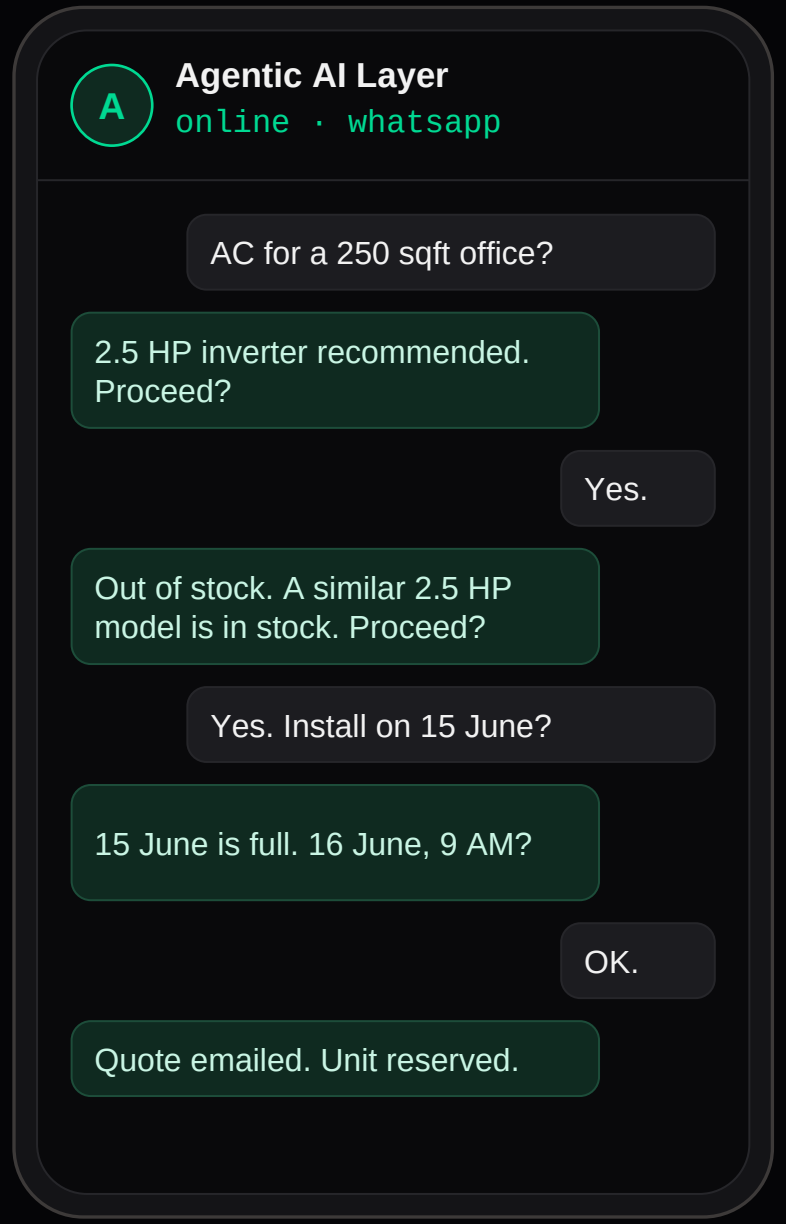

THE TEAM

Sales
Closes the sale

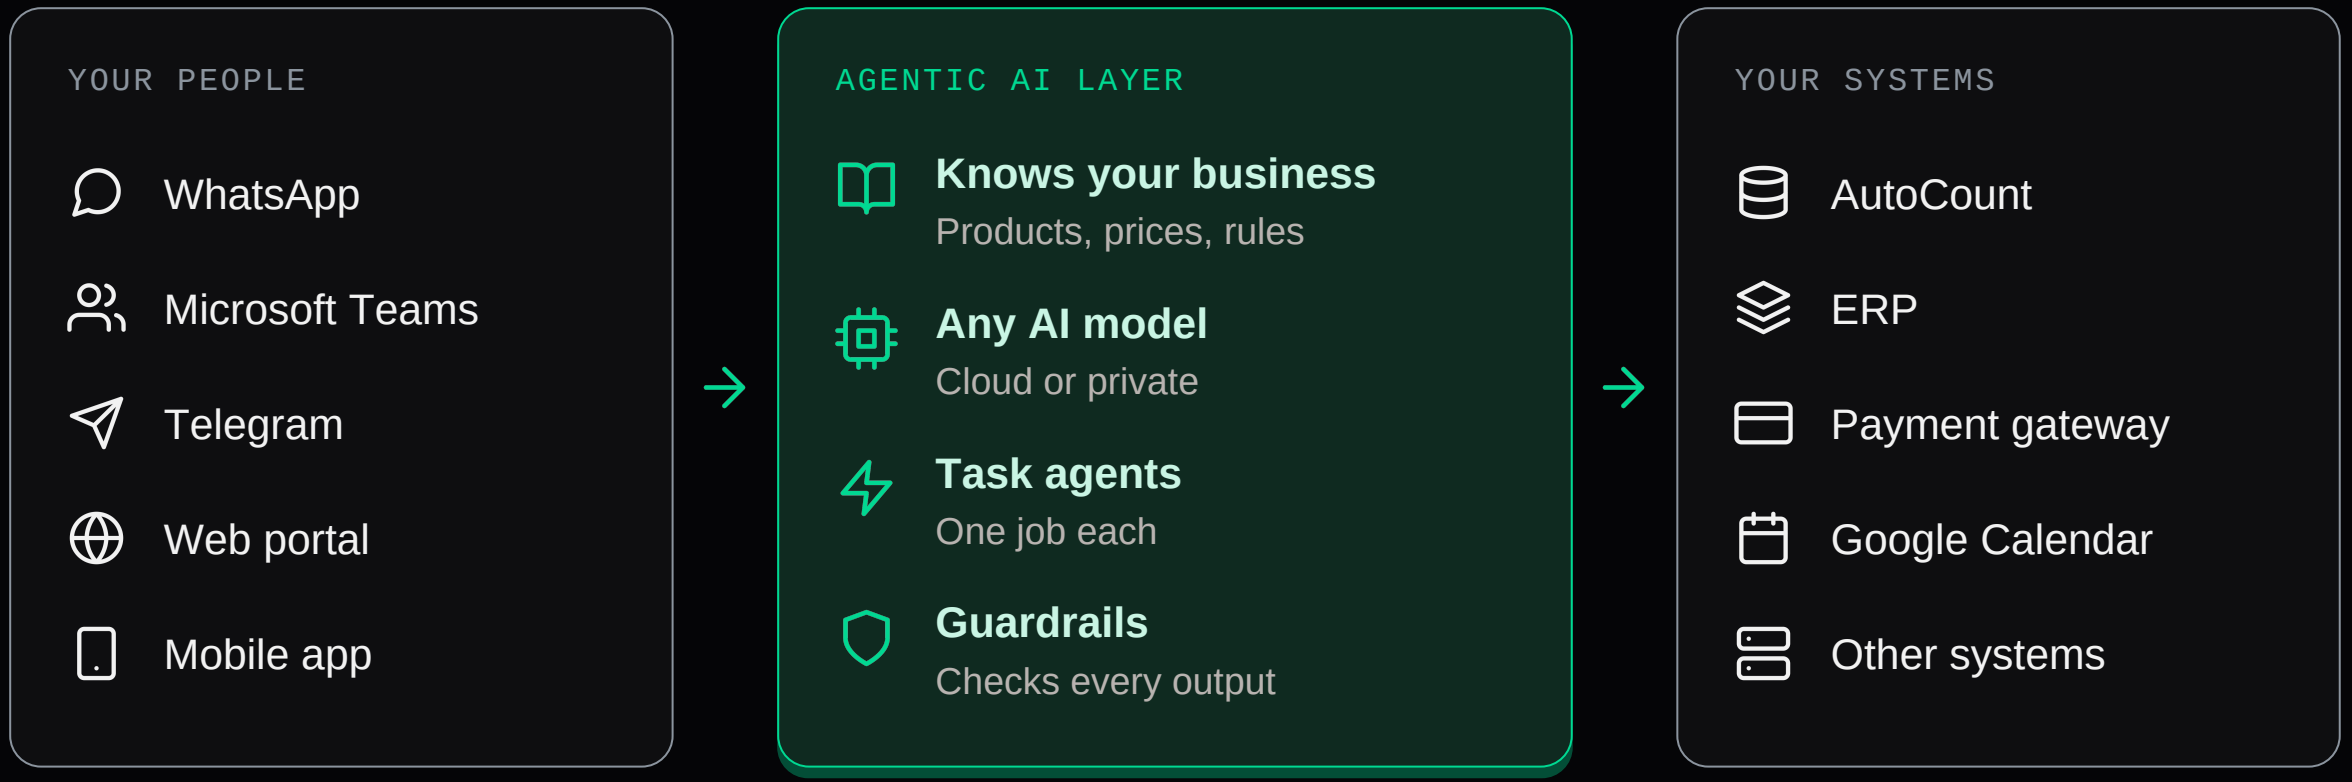

Product
Knows the catalogue

Stock
Checks availability

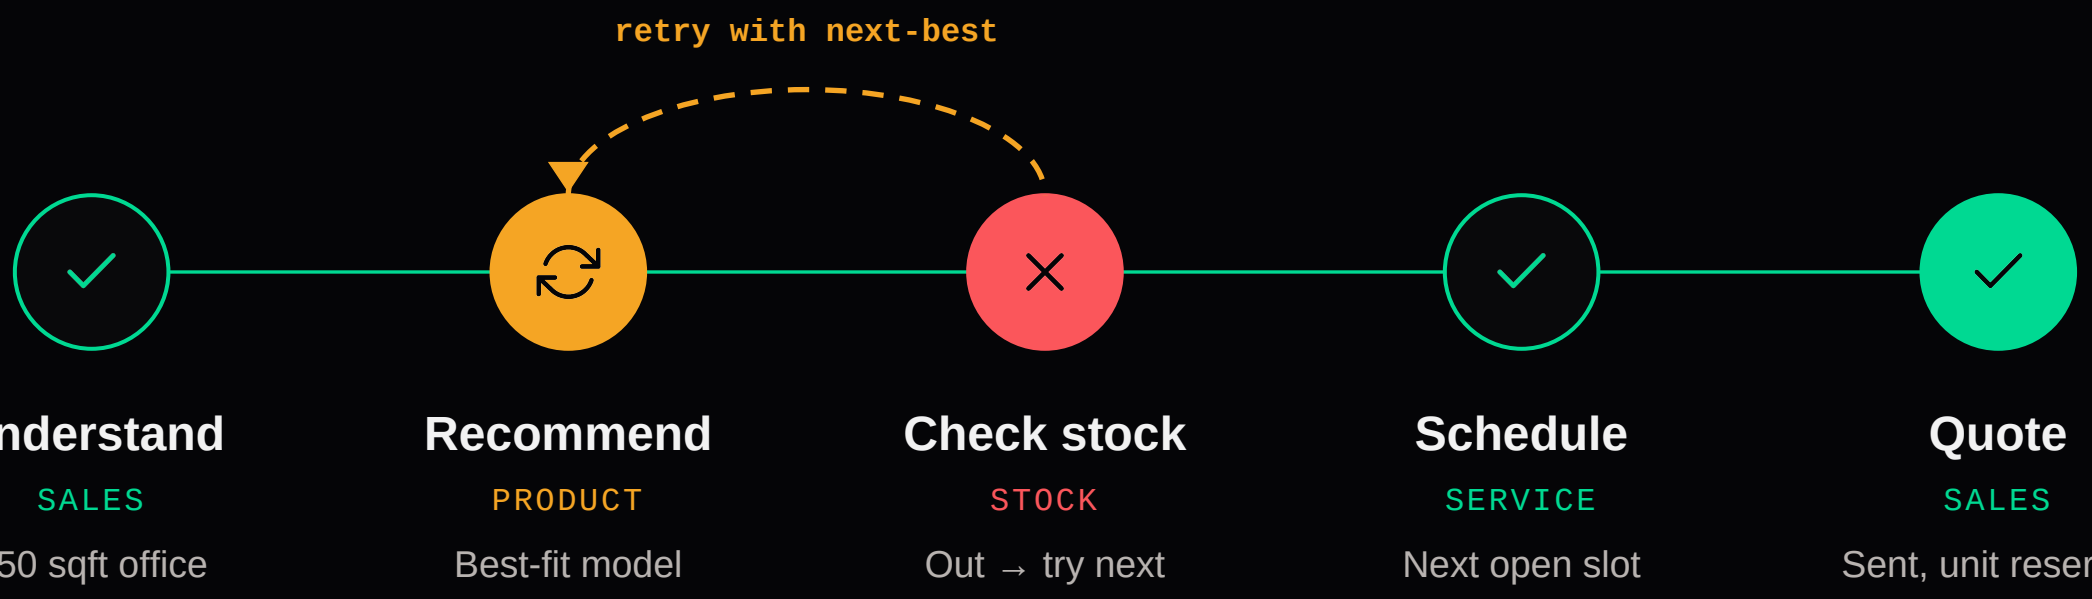

Service
Books installs

Between your people and your systems

Out of stock? The sale continues

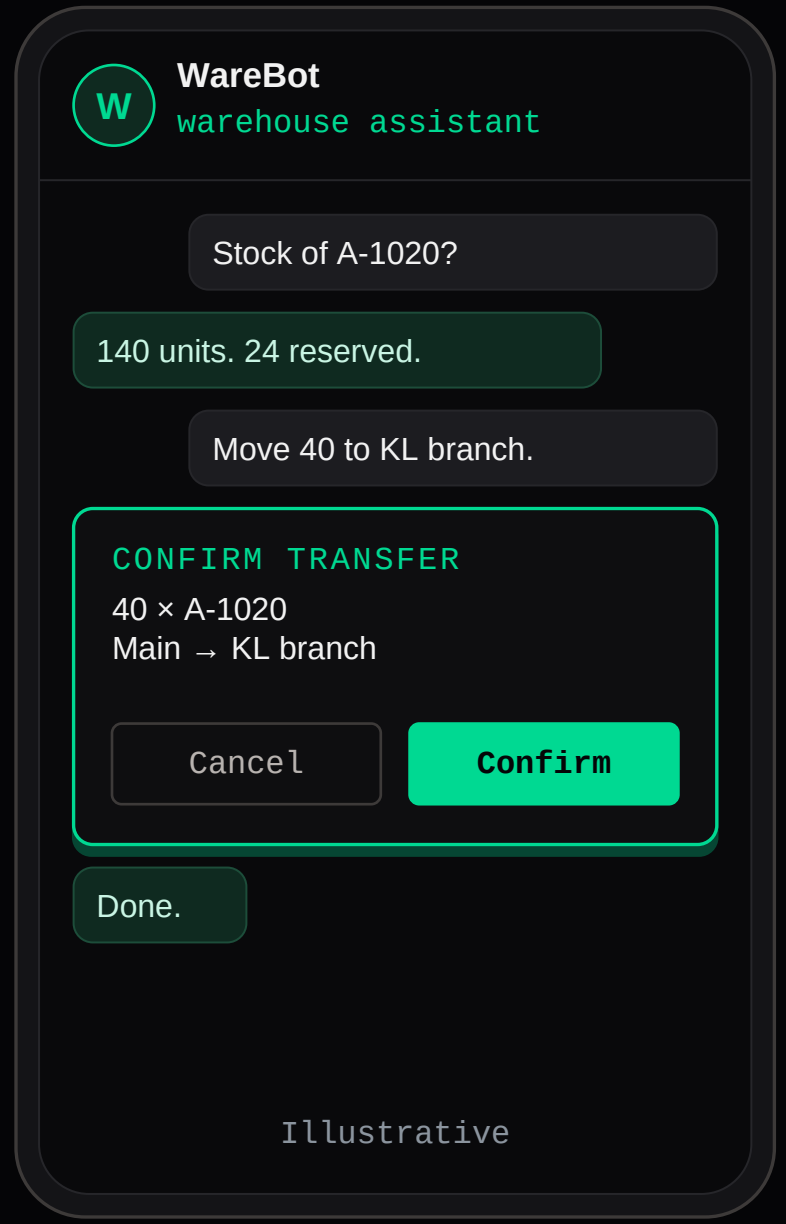

No dead ends. Always an alternative.

WareBot

Ask the warehouse. Changes need a yes.

ASK BY

- **Typing**
- **Scanning**
- **Speaking**

Fast, but careful

35+
warehouse actions

1 tap
to confirm a change

5 min
then unconfirmed changes expire

Private
AI model option

What all four share

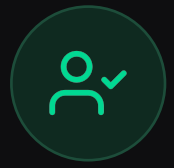

Familiar channels

Teams, WhatsApp, mobile

AI does the typing

Receipts, orders, lookups

People decide

Approve before it posts

Your system stays in charge

Dynamics 365, AutoCount, WMS

Have a workflow that should run itself?
